made known that there was a sharp dif-ference of opinion between those who ad-vocated a demand for ratification with-out amendments but with reservations, and those who called for a definition of policy favoring amendments.

Text of the Resolutions.

The resolutions presented by Joseph E. Warner of Taunton, Speaker of the Massachusetts House, as chairman of the platform committee, said:

"One diplomatic outcome of the great conflict has been a League of Nations, in which the United States is a major party concerned. In this controversy rigorous party lines have not been drawn and the question is a matter of national rather than parties a policy. question is a matter of national rather than partisan policy. All are agreed that this nation should do everything in its power to secure and perpetuate world peace and to substitute forever for the horrors and miseries occasioned by war-fare a just and permanent method of settling with homor and certainty the insertiable disputes between nations and

In approving the platform Senator Lodge said too much emphasis had been placed on the difference between an amendment and a reservation. There amendment and a reservation. There were, he said, two more amendments of consequence now before the Senate. One was that striking out the provision regarding Shantung, which he described as morally indefensible as well as politically shortsighted." The Senator said he would vote against the Shantung provision "whether it be by amendment or reservation, whenever it is presented to

"The other amendment," he added, "! to give the United States an equal vote in the league with any other nation. I think that at whatever council table the United States may sit her vote should be the equal of any other nation there."

Necessity for Reservations.

Discussing the necessity for reserva-tions, Senator Lodge said without them "the treaty is dead."

"Three days ago," he added, "that would have been merely my assertion. But on Thursday we demonstrated it. The Fall amendments were simply intended to take our commissioners out of thirty or forty commissions to settle boundaries—to take hem out of the boundaries—to take hem out of the commissions in regard to business which did not concern us, which were not vital They will all be adopted in the reserva-

"The convention gave unequivocal indorsement to Gov. Coolidge "for his ready and feariess service for the enforcement of law and order." The Governor, who has been ill, was present long enough to deliver a brief address, in which he reviewed the administration of his office and defended his attitude at the time of the police strike. "It is my purpose," he declared, "to maintain the government of Massachusetts as it was founded by her peoplethe protector of the rights of all, but subservient to none."

But I found that without full information, without a staff to make the information independent of all de-partments, such cuts in the end were sot likely to prove economical and often might interfere with efficiency. More-over, there should be some means by which the President can be constantly advised from quarter to quarter of what it is costing each department and each it is costing each department and each bureau to run, and he should have the means of noting by comparison the dif-ference between one department and an-other in the cost of the same functions. The blame for Governmental extrava-gance, Mr. Glass said, rested upon both the Government departments and Con-gress. He attacked the plan now being pushed in Congress to grant a large ad-ditional bonus to the service men, as-serting it was only a move to buy the soldier vote and that it was certain to bring another bond issue, which would endanger the credit of the Government. The Secretary indorsed the budget sys-tem as a step toward greater economy. Mr. Glass then said Congressional economy in some important bureaus would result in a large loss to the Govtem as a step toward greater economy.

"To-day the credit of the United States is imperilled by projects initiated and supported on the floor of Congress with a view to capturing the so called soldier vote," Mr. Glass said. Throughout his nome State Senator Johnson's reception has been in the nature of an ovation, and his speeches against the league covenant, which were described as the most forceful arguments yet heard, provoked great enthuriasm. Mr. Johnson has devoted himself

especially to replies to President Wilson's statements about Article X., the Shantung deal and disarmament. His clear cut accusation that the President after asserting repeatedly that a reservation to Article X. was unneccessary because the man power of this country could not possibly be employed by the league without definite affirmative action by Congress, had turned an intellectual somersault when he said that the proposed Senate reservation merely setting forth in explicit terms this very provision would "cut the heart out of the league," made a profound impression.
